## Want to become a Registered Building Legend but can't make it to one of our physical classes and want to be in charge of your study timetable? CWBTS's Video Led, Self-Paced – Online model may be perfect for you.

Unlike other education providers who simply put a text book up on the internet and call it online learning, CWBTS is different. Our content is all video led, where you hear from industry experts on each topic and have the opportunity to book in and speak with your Trainer and Assessor as you require throughout your studies.

Our RTO is part of a leading homebuilder group with a 70 year history. We are experts in what we do and love helping tradies take the next step in their careers.

### An alternative to traditional online classes

Building and construction is a hands-on industry, but with improvements in technology, our Self-Paced online model is becoming increasingly popular. Our content has been developed by industry experts and we have pre-recorded all of our classes in video format for you to watch in your own time.

With our Self-Paced model, you can log in and complete your classes and assessments at a time that is convenient to you. Self-Paced training is available throughout Australia.

Not every student is suited to online learning. But if you want flexibility, the freedom to study from home and to be the master of your own destiny, then our Self-Paced online model could be exactly what you need.

### How long will it take?

For the CPC50210 – Diploma of Building and Construction (Building) it is expected that this would be completed within an 18 month period and CWBTS is there every step of the way to help with your success.
